General Philosophy

Camp Activities Philosophy for Burning Man

Our Philosophy

At our Burning Man camp, we believe that the essence of the festival lies in the vibrant interactions between burners. Our approach to camp activities is centered around creating opportunities for meaningful connections and enriching experiences. We curate a diverse range of activities, including refreshing massages, engaging talks on fascinating subjects, and workshops designed to benefit both singles and couples. Our guiding principle is "camp first," which means we prioritize the interests and passions of our camp members when selecting activities. This ensures that every event we offer is driven by genuine enthusiasm and expertise. Success means our own members participate in our activities and enjoy those activities!

Selecting and Advertising Activities

Once our camp members have chosen their preferred activities, we open these experiences to the wider Burning Man community. We use platforms such as the iBurn app and the Burning Man book to advertise our workshops and services, making it easy for fellow burners to discover and participate in our offerings. By promoting our activities through these channels, we ensure maximum visibility and engagement, allowing us to share the unique spirit of our camp with everyone at the festival.

Engaging Camp Members in Activity Selection

How to Get Involved

We believe that the best activities are those that resonate deeply with our camp members. To select the most compelling and enjoyable events, we invite all camp members to participate in a collaborative brainstorming session. During this session, everyone is encouraged to propose ideas for workshops, talks, and services they are passionate about. Following this, we hold a camp-wide vote to determine the most popular and feasible ideas.

Finding Facilitators

Once we've identified the activities our camp is excited about, the next step is to find willing facilitators. We reach out to camp members who have expertise or interest in leading these activities. Additionally, we encourage members to invite friends or acquaintances with the necessary skills to join our camp and contribute to the workshops. This approach ensures that our activities are not only well-organized but also led by individuals who are genuinely passionate and knowledgeable.

By fostering a camp environment where every member's voice is heard and valued, we create a dynamic and inclusive space that enhances the Burning Man experience for everyone involved.

Timeline & Deadlines

To maximize visibility and ensure that burners have ample time to plan their participation in your camp activities, it's advisable to start advertising at least two months in advance. Given that this year's Burn starts on August 25th, you should aim to have your activities advertised by June 25th.

Here's a suggested timeline:

1. **Activity Planning and Selection:**

- **May 25th - June 5th:** Conduct brainstorming sessions and voting within the camp to select activities.

2. **Finding Facilitators:**

- **June 5th - June 15th:** Identify and confirm facilitators for the chosen activities.

3. **Preparation of Promotional Materials:**

- **June 15th - June 20th:** Create detailed descriptions, schedules, and promotional content for each activity.

4. **Submit to BMORG's WWW:**

- **June 20th - June 27th:** Submit our events to BMORG so it can make it to the book

5. **Advertising:**

- **June 25th:** Begin advertising your activities on the iBurn app, the Burning Man book, and any other relevant platforms.

This timeline allows for a thorough and organized approach, ensuring that your activities are well-planned and effectively promoted to attract maximum participation.

Temple related activities

If you wish to volunteer for the 2024 temple team, you can do so here:

<https://www.2024temple.com/volunteer>

If you can not attend this year

If you can not attend this year, but you want to put something in the temple, it will be our honor and privilege to help! Please reach out to one of the leads in our Discord server here:

<https://discord.nyd.nyc> (Please do this in the #Activities chat). We will figure out a way to receive your notes or photos or whatever else you wish to put in the temple, and we'll make sure it happens.

Our camp's temple run

Every year, we all go and visit the temple together as a camp. You obviously do not have to join, sometimes you want to just be alone in the temple, and take your own time to connect with the universe with the temple as your portal, and that's OK!

We have not yet decided when this will happen. We will decide on the best time to do this and publish it in our [Camp Activities](#) page.

Workshops

The NYD WWWW (Who What Where When)

This page lists the workshops, the workshop leaders and any helpers, and what the workshop is about. For an actual workshop schedule, please check the [Camp Activities](#) page which has a day by day, hour by hour schedule of all camp activities.

Sacred Garden ([Website](#))

Introduction

Interactive workshop for couples and singles to learn how to unlock a superpower of transforming your relationship into your personal Sacred Garden of understanding, healing, and unity.

The workshop includes learning about different types of conflicts in relationships, common mistakes people make during conflicts, and ways to resolve them so that you become closer as a couple and move towards Mature Love stage of your relationship.

There will also be exercises to practice these skills and get ready to use them in real life in the future.

Workshop led by

[Viktor Yershov](#), a former software engineer who now helps people build healthy long-term relationships through Communication, Emotional Intelligence, and Compromise.

He created the Sacred Garden program, which is based on the latest scientific research and the work of top relationship psychology experts. His primary focus is on making the program easy to understand and use, even for those who have never studied psychology or learned how to build relationships.

The Blind Barber

Introduction

Title for WWWW: The Blind Barber - Come get your hair cut!

Description for WWWW: Blindfolded novices wield trimmers on brave volunteers. Cheer as locks fall! Your new 'do? A playa roulette masterpiece!

Burners will volunteer to cut hair and make people's hair "silky smooth"! We will have the customer sit in the middle of our events tent, on top of a tarp to catch falling hair. We will vacuum that hair, and use sticky rollers on our customers to prevent any MOOP. The barber will be blindfolded, and they will promise to do their best to accommodate the customer's requests!

Workshop led by

Aric Fedida will lead this workshop, and even volunteer to cut hair, but anyone can volunteer to become a blind barber. Please reach out to me on our camp discord if you wish to participate in this activity! <https://discord.nyd.nyc>
