Camp Layout

Camp layout (Work in progress)

Note: The frontage is facing the mountain (away from The Man).

Useful Do / Don't

Burningman.org has a useful document for camp layout Do's and Don'ts:

https://burningman.org/event/participate/camps/placement-process/camp-layouts/

Our camp layout in 2023

Seen in the drawing below are just the camp's structures, systems and vehicles. The rest of the space was taken by people's cars & RV's (95% occupancy!). The shade structure was about 60% full.

Camp Diagram

Note that while this diagram is straight, the actual plot was slightly curved but not enough to warrant representation in this diagram (see satellite photo further down).
